

**Practical and Field Survey
Educational Tour
TO
MANAS NATIONAL PARK
Date: 29/12/2023**

Brief Note:

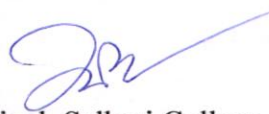

The Bodo Department of Salbari College arranged an educational tour to Manas National Park on 29/12/2023 focused on the rich biodiversity and conservation efforts within the park. Students would have the opportunity to explore the park's diverse ecosystems, including tropical forests, grasslands, and wetlands, and learn about the various species of flora and fauna that call it home, such as the endangered Indian rhinoceros, Bengal tiger, and Asian elephant. Throughout the tour, students insights into the park's conservation initiatives, which may include habitat restoration, anti-poaching efforts, and community engagement programs aimed at promoting sustainable livelihoods for local communities while protecting the park's natural resources.

Outcome of the Tour:

The outcome of the tour would ideally be an increased awareness and appreciation for biodiversity conservation and the importance of preserving natural habitats. Students would likely gain a deeper understanding of the interconnectedness of ecosystems and the role that individuals and communities play in safeguarding our planet's natural heritage. Additionally, they may be inspired to take action to support conservation efforts in their own communities or through advocacy and awareness-raising initiatives.
